

# Legal Planning for the Special Needs Family

## Join us for a webinar presented by Jennifer A Sabourin from Clancy & Associates

**Hosted by Elim Christian Services**

The Clancy & Associates mission is to eliminate the confusion and stress families feel when planning their child's future. They guide confused and overwhelmed families through complex disability systems, form sustainable plans for life, and build community resources. Their special needs attorneys help manage many areas— including special needs trusts, guardianship, educational advocacy and planning, SSI/SSDI/Medicaid planning, navigating social services, life planning, and CILA considerations.

Join us as Jennifer speaks to many of these topics and answers questions from families and caregivers.
